

## The Story

A go-anywhere design

Dining room buffet for storing dinner party essentials. Home office hero for paperwork and colouring crayons. Hallway sideboard for tidying away everyday essentials and displaying a fresh bouquet. Or even a kitchen staple, like a scaled-down dresser.

Cupboard love

Two spacious cupboards are what give this piece its true storage potential. Inside is shelving, two layers in fact, so you can make the most of the space. And don't forget the drawers on top. This buffet is versatile.

It's in the detail

Where to begin? Every piece within the Halifax Contrast collection has a classic silhouette which features a moulded plinth at its base and flared cornice on top. The antiqued hardware is in the form of traditional cup handle and button knob with exposed bolts to match. And then there's the period-style panelling and bevelled drawer fronts.
