

### **The Story**

Low profile combination bench and storage unit offers appealing storage options, with its smart combination of hand-woven palm baskets and shelving. And, when needed, extra seating can be provided in a pinch. The flared crown molding, rustic baskets, and painted finish, all work in unison, to create this unique piece.

### **The Story**

The best hallways are those with a bench. Not only does a stylish perch give us somewhere to sit while we fasten shoelaces, but it provides integrated storage with a handy hutch to keep those shoes you use the most. We like to use the baskets to keep hats and scarves or compact umbrellas right by the front door.

Every seat deserves an additional cushion or two. Choose a plump, feather-filled scatter cushion with an exciting print to make the look all the more inviting.
