

The Story

A pantry is a kitchen classic. Just like the farmhouse table, a traditional cabinet like this is a real country staple. You can use it two ways, as a crockery closet or well-stocked larder. With the former, cupboard space is freed up by stacking plates and towering bowls. Add in serve ware too if you have the room. With the latter, it's about harking back to days of old by creating a one-stop-shop for all your sundries from pulses and grains to baking essentials.

Style Tip

For an ultra-smart look, think about colour coordination. The cupboard fronts are glazed meaning your interior is on full display so make it work harder by creating a palette, be it one colour or complementary tones that work in perfect harmony.
