

The Story

The Halifax mirror is first noticed for its robust frame, crafted from solid mahogany.

Next comes colour, in a clean white that will lift any scheme.

Third is its simple style, as though it's picture-framing the bevelled glass within. Wherever you hang it, you may find you spend more time looking at it than in it.

Style Tip

For a special occasion or just for a bit of fun, drape a strand of fairy lights along the top of the frame and let the ends dangle over the edges slightly. You can do the same with a garland of greenery too
